

# When You're Looking for... Home Loan Options

## Approved "Conforming" Condo Projects in Florida (Warrantable by Fannie Mae & Freddie Mac)

### How to use the Approved Condo List

In order to take full advantage of our Approved Condo List, follow the steps below:

1. Search through the list by using the "Ctrl + F" function and searching by Project Name, State, County, or Zip Code.
2. If your Project is there, fantastic! Take a look at the columns for Budget, Insurance, and Questionnaire Expiration to see which documents we already have pulled together. If the Project is not there, we don't have the documents just yet. Once we have closed a loan in that Project, it will be added with corresponding dates.
3. If the corresponding column for a document is blank, we do not have a copy of that specific document for the Project yet and you will need to obtain it. If it shows "N/A", that document is not required for the review type listed.
4. Any column for a document that includes a date indicates that we have obtained this document in the past and it expires on the date listed. If it is not yet expired and your loan will close prior to its expiration, let us know so we can utilize it. Include this in a broker comment in your initial package, or let your Underwriter know when they call with an approval so we can send it over to our Project Team.
5. If a date is listed but it has already passed, the document we have on file is expired and cannot be used, but it is still a good sign that the project was recently approved.
6. The last column on the right side indicates whether we previously completed a "Limited Review" or a "Full Review". If your AUS findings are requiring that we complete a Limited Review, and our list notes that we completed a Full Review, no need to worry. This likely means that we have additional documentation that won't be required on your file. If the opposite is true and we completed a Limited Review but your AUS findings require a Full Review, still check to see what documentation we have and its expiration, as this may still save you from obtaining a master insurance policy.
7. Don't forget to come back and check the list for any future loans. We close loans faster than anyone else in the business, so new Projects are being added regularly.

**Disclaimer: Presence of a Project on the Approved Condo List does not guarantee an approval. Documentation provided will be reviewed to ensure project continues to meet guidelines.**
